

Practice Questions (based on company.sql)

1. Create a new table named `company_car` with the following columns:
 - `car_id` (INT, PRIMARY KEY)
 - `model` (VARCHAR(30))
 - `license_plate` (VARCHAR(10), UNIQUE)
 - `driver_ssn` (CHAR(9))
2. Insert a new record into the `company_car` table: (101, 'Toyota Camry', 'HOU-123', '123456789').
3. List the first and last names of all employees who work in the 'Administration' department.
4. Show the first names and last names of all employees who are working on the 'ProductX' project.
5. List all employees (first and last name) and the hours they work on projects managed by the 'Research' department.
6. Show the full names and salaries of all employees who earn less than \$30,000. Use DISTINCT to ensure each employee is listed only once.
7. Show the full names of all employees who work in the same department as 'Franklin Wong'.
8. Show the full names of employees who have the same supervisor as 'John Smith'. (Exclude 'John Smith' from the list).
9. Show the names of all employees who have a dependent named 'Alice'.
10. Find the name of the employee who does not have a supervisor (i.e., their `superssn` is NULL).

11. Calculate the average salary for each department. Display the department's name and its average salary.
12. Calculate the total number of hours worked for each project. Display the project's name and the total hours.
13. Count the number of dependents for each employee. Display the employee's SSN and the number of dependents they have.
14. Find all employees who are male, live in an address that contains 'Houston', and have a salary over \$35,000.
15. Display the first name and last name of **all** employees, and also show the dependent_name for any dependents they have. (If an employee has no dependents, the dependent name should be NULL).
16. Display the first name and last name of all employees in the 'Research' department, and also show the name of any projects they are working on. (If a 'Research' employee is not on a project, the project name should be NULL).
17. List the names of all employees who are *not* working on the 'Reorganization' project.
18. Find the names of all employees who have a dependent with a name that starts with the letter 'A'.
19. Show the full name of the employee who has the highest salary.
20. List the first name of the employee, the project name, and the department name for all projects located in 'Stafford'.
