Vaia,

I hope you are doing well. I am writing to address the issue regarding my recent homework submission, for which I received a score of 0/100 due to similarities with another student's work.

First and foremost, I want to sincerely apologize for this situation. I completed my homework independently using Google Docs, which I now understand made it easier for others to copy. While I may have shared my homework with a classmate to compare answers or clarify doubts, I was unaware that they would copy my work word for word.

I want to assure you that I have never copied my homework from anyone or anywhere else. I have always put in my best effort to complete all my assignments on my own, as learning and improving through my work is very important to me. My previous homework submissions reflect my genuine effort and commitment, which you are welcome to review.

This score has significantly impacted my overall percentage in the course, which is especially critical for me this semester. I kindly request you to reconsider the evaluation of my homework. If further verification is needed, I am happy to provide any additional information to demonstrate that the work was my own.

Lastly, I would really appreciate the opportunity to meet with you during your office hours to explain this matter in person. This semester has been particularly challenging for me, and I am deeply saddened by this situation. I hope we can discuss this further and find a way to resolve it.

Thank you for your time and understanding, and I sincerely hope for your kind consideration in this matter.

Best regards,
Mohammad Tushar Abdullah
